During the fiscal year ended March 31, 2016, the Company determined the following with respect to officer remuneration for the fiscal year ended March 31, 2017 and thereafter.

(1) Basic policies for officer remuneration

The basic policies for officer remuneration of the Company are as follows.

- ii. Establish a highly performance-based remuneration plan that motivates officers to attain performance targets
- iii. Set remuneration linked to medium to long-term corporate value
- iv. Enhance objectivity and transparency in the remuneration determining process

(2) Framework of the remuneration standard

The remuneration standards are determined with reference to the officer remuneration standards at major corporations as its benchmark based on external database services.

(3) Composition of remuneration

The remuneration for Board Directors (excluding External Board Directors) and Corporate Executive Officers, etc. consists of fixed remuneration (cash remuneration), short-term incentive plan (cash remuneration) based on individual assessments for each fiscal year, and long-term incentive plan (stock remuneration) based on attainments of the consolidated performance targets for each fiscal year. EBITDA for the existing businesses (*1) shall be adopted as a performance target indicator for the long-term incentive plan in the period up to the fiscal year ending March 31, 2019. For the fiscal year ending March 31, 2019, the level of attainment of the adjusted EPS (*2) performance target set during the fiscal year ending March 31, 2017 shall also be considered in determining the level of payment. The performance-linked factor for the long-term incentive plan shall be within the range of 0% to 150%. Composition ratios of performance-based remuneration and stock-based remuneration that constitutes the remuneration are designed to provide sound incentives in order to achieve sustainable growth. Specifically, approximate ratio of “short-term incentive plan” against fixed remuneration is set at around 50% and that of long-term incentive plan against fixed remuneration is set within the range of 50% to 200%. Meanwhile, remuneration for External Board Directors and External Audit & Supervisory Board Members shall solely consist of fixed remuneration.

The performance target indicator for the long-term incentive plan reflects the differences in the amount of EBITDA arising from sale of businesses carried out during the period. Nevertheless, there will be no change to the level of adjusted EPS set for the fiscal year ending March 31, 2017.

(*1) EBITDA for the existing businesses:

EBITDA (operating income + depreciation and amortization ± other operating income/expenses) for the existing businesses, excluding results of the subsidiaries to be newly consolidated as a result of acquisition of their shares, etc.

(*2) Adjusted EPS:

Adjusted profit (*3) / (number of shares issued at the end of the period - number of treasury stock at the end of the period)

(*3) Adjusted profit:

Profit attributable to owners of the parent ± adjustment items (*4) (excluding non-controlling interests) ± tax reconciliation related to certain adjustment items

(*4) Adjustment items:

Amortization of intangible assets arising due to business combinations ± non-recurring income/losses

(4) Governance

The Company has established the Evaluation Committee and the Remuneration Committee chaired by an External Board Director as advisory bodies to the Board of Directors for the purpose of enhancing objectivity and transparency of remunerations for executives. In terms of the amount of officer

remuneration, remuneration for Board Directors is determined by the Board of Directors taking into account the reports by the Evaluation Committee and the Remuneration Committee, while remuneration for Audit & Supervisory Board Members is determined on the basis of consultation among the Audit & Supervisory Board Members, within remuneration ranges approved by the General Meeting of Shareholders.

External Board Directors are selected based on the independence criteria prescribed by the Tokyo Stock Exchange, as well as individual insight and capabilities in fulfilling duties and responsibilities as an External Board Director, regardless of gender, age and nationality.

In addition, the Company appoints external compensation consultants with a view to introducing objective viewpoints from outside the Company and expertise on officer remuneration systems. With their support, the Company reviews its remuneration standard and remuneration systems in light of external data, the economic environment, industry trends and business conditions, among others.

[System to Support External Board Directors (External Audit & Supervisory Board Members)]

External Board Directors

Various types of support are provided by the Secretariat of the Board of Directors so that External Board Directors may properly supervise the business execution of Board Directors who are also Corporate Executive Officers. Specifically, initiatives include prior briefing on the outline of agenda of the Board of Directors, reports on the details of deliberation of important meetings such as the Business Strategy Meeting and other provision of information.

External Audit & Supervisory Board Members

Assistants to the Audit & Supervisory Board Members provide necessary support including distribution and explanation in advance of meeting materials and provision of various information.

2. Items relating to Functions of Business Execution, Audit and Oversight, Nomination, and Decision on Remuneration, etc. (Outline of the Current Corporate Governance System)

(1) Execution of Business [Corporate Governance Code Supplementary Principle 4-1-1]

At the Company, important matters of business strategy and business execution, are decided upon by the Board of Directors and the Business Strategy Meeting, etc.

In principle, meetings of the Board of Directors are convened once a month and once every quarter, and are attended by all Board Directors (five) and Audit & Supervisory Board Members (four).

The Business Strategy Meeting is an advisory body to the President, CEO, and Representative Director and, in principle, holds meetings twice a month. These meetings are attended by Board Directors who are also Corporate Executive Officers (three), Corporate Executive Officers responsible for corporate function (three) and standing Audit & Supervisory Board Members (two).

In addition, the Company established the Strategic Business Unit (hereinafter the “SBU”) as a strategic management unit, and allocated companies directly under each SBU. The Business Strategy Meeting has partially transferred its authority to the SBUs and the companies.

To strengthen its business execution functions, the Company has adopted the Corporate Executive Officer system, as well as Board Director and Managing Corporate Executive Officer systems.

The Board of Directors makes decisions on investments above a certain financial value and on key personnel and other matters that could significantly impact the Company’s corporate governance or consolidated business performance. Other matters are decided by the Business Strategy Meeting. Criteria for determining where decisions are to be made are set forth in the Rules on Decision-making Authority, which are examined at least once a year by the Board of Directors for possible revision.

(2) Audit and Oversight [Corporate Governance Code Principle 4-4, 5, 6, 7, 8]

The Company has adopted the “company with an Audit & Supervisory Board” form of corporate governance, as defined in Japan’s Companies Act.

The Board of Directors includes two External Board Directors who are independent of the Company. Measures such as regular meetings with external experts are taken to ensure that a certain number of appropriate candidates are always available to fill open spots. Given the dramatic changes occurring in Internet technology and other aspects of its business environment, the Company annually examines its corporate governance and requirements to sit on the Board of Directors, and identifies appropriate

candidates for future appointment. While there are no standards for the number of independent External Board Directors, as a result of the abovementioned measures, the Company currently maintains a board in which they comprise at least two-fifths (more than one-third) of the members.

The Business Strategy Meeting must be convened with the participation of at least one standing Audit & Supervisory Board Member. This requirement is intended to promote the oversight function.

The Audit & Supervisory Board consists of two standing members and two external members, and, in principle, meets once a month in performance of its management oversight function. At the 57th Ordinary General Meeting of Shareholders, held on June 20, 2017, one Substitute Audit & Supervisory Board Member was elected in preparation for occasions when the number of regular Audit & Supervisory Board Members is less than that required by laws or regulations.

Regarding the internal audit system, steps have been taken to strengthen the system of internal checks. Among these are the establishment of the Internal Audit Office, as an auditing unit independent of executive units, and a department responsible for promoting internal controls, as a unit with overall responsibility for compliance.

Accounting audits are performed by Certified Public Accountants affiliated with Ernst & Young ShinNihon LLC.

(3) Agreements for Limitation of Liability of Board Directors (Excluding Board Directors who are Also Corporate Executive Officers) and Audit & Supervisory Board Members

The Company has entered into an agreement to limit the liability to compensate for damages under Article 423, Paragraph 1 of the Companies Act with all the External Board Directors and Audit & Supervisory Board Members. The maximum amount of liabilities for damages under the said agreement is the minimum liability amount provided by applicable laws and regulations. However, such limitation of liability only applies when the officers perform their duties that caused the liability in good faith and without gross negligence.

(4) Nomination and Remuneration Decisions

[Corporate Governance Code Principle 3-1 (3), (4), 4-10, 4-11, Supplementary Principle 4-11-1]

Regarding the overall size of the Board of Directors, a maximum board size of 11 Board Directors is judged to be appropriate in view of the Company's size and functions, possibilities for designating Board Directors to be responsible for particular functions going forward and the need to have an appropriate number of External Board Directors. For the present time, it is thought that a board consisting of current members is most appropriate. As for the balance of knowledge, experience and capabilities, as well as diversity, of the Board of Directors, Board Directors who are also Corporate Executive Officers meet annually to consider the status of the corporate governance system and requirements to be a Board Director, and then identify appropriate candidates.

In identifying candidates for appointment as top managers, Board Directors and Audit & Supervisory Board Members, attention focuses on the knowledge and views of potential candidates and a final pool is designated based on potential to fulfill the duties and responsibilities of the above positions. No consideration is given to gender, age or nationality. Nomination, evaluation and remuneration decisions concerning top managers and Board Directors are deliberated by an advisory body consisting mainly of external officers and serving the Board of Directors. The purpose of this approach is to enhance objectivity and transparency.

Specifically, in each fiscal year, the candidates are deliberated by the Nomination, Evaluation and Remuneration Committees and decided by resolution of the Board of Directors. The Nomination Committee deliberates and reports on the selection of the President and Representative Director; the Evaluation Committee deliberates and reports on evaluation of Board Directors' performance and evaluation standards; while the Remuneration Committee deliberates and reports on the remuneration amount of Board Directors based on their performance evaluation and the remuneration standards and systems of Board Directors and Corporate Executive Officers; and subsequently each Committee submit proposals to the Board of Directors. In terms of the amount of officer remuneration, remuneration for Board Directors is determined by the Board of Directors taking into account the reports by the Evaluation Committee and the Remuneration Committee, while remuneration for Audit & Supervisory Board Members is determined on the basis of consultation among the Audit & Supervisory Board Members, within remuneration ranges approved by the General Meeting of Shareholders. Individual remuneration standards are determined with reference to the officer remuneration standards at major corporations as its benchmark based on external database services (while remuneration standards of Audit & Supervisory

Board Members are determined based on the remuneration standards of standing and non-standing corporate auditors of major corporations).

Each Committee is chaired by an External Board Director and the majority of the Committee members are comprised of External Officers.

(5) Individual rationale supporting the appointment of Board Director and Audit & Supervisory Board Member

The Company has consequently set a target for dividend payments of "approximately 30% upon excluding the effects of non-recurring income/losses from profit attributable to owners of the parent." In addition, in terms of capital efficiency, the Company aims to maintain a ROE of roughly 15%.

In cases of capital policies that will result in a change of control or significant dilution, the Board of Directors will fully examine them, ensure appropriate procedures are taken and make sufficient explanation to shareholders on their necessity and rationality.
